ECO-FRIENDLY
PRODUCTS

Our planet is facing unprecedented sustainability challenges, and at JOG, we're committed to being part of the solution. Through our REPLAY Series, we are leading the way in eco-friendly sports apparel, proving that high-performance gear and sustainability can go hand in hand.

We partner with innovative companies that upcycle PET bottles, transforming plastic waste into high-quality, durable performance fabrics. This recycled thread forms the foundation of our cutting-edge materials, ensuring exceptional durability, comfort, and breathability without compromising the environment.

At JOG, we believe that the future of sports should be as strong, resilient, and sustainable as the athletes who play them. Join us in making a difference—one jersey at a time.

COLLARS AND SIZE CHART

HOW TO MEASURE:

Lay your jersey flat.

- 1. Chest Width (A): Measure from one inch under the armpits of the jersey horizontally from seam to seam. (e.g. An adult large jersey will measure 26" across (under the arms) on one side of the jersey, which will be 52 inches all around for an AL-52 size.)
- 2. Sleeve Length (B): Measure from the edge of the collar all the way to the end of the wrist.
- 3. Jersey Length (C): Measure from the bottom of the back collar to the center bottom back of the jersey.

PLEASE USE THIS CHART AS A GENERAL GUIDE; SIZES VARY SLIGHTLY BY JERSEY STYLE.

Size Chart

HOW TO MEASURE:

1. It's best to measure and compare against an actual pair of shell pants and choose a corresponding size from our size chart (or size up / down as required).
2. If you don't have shell pants, you can measure against your hockey pants. Note, the side length is the most important measurement. Measure your hockey pants from the waistline down to the bottom of the pants (not including the lower back / stomach protection area above the waist), then choose a corresponding size.
